

TIA ONLINE UNIVERSITY

TRAINING ANYTIME, ANYWHERE!

As the industry leader in tire technician training and certification, the Tire Industry Association (TIA) now offers all of its Basic Level Training Series in a convenient and accessible format on the [TIA Online University](#).

Technicians can access the most comprehensive, up-to-date tire service training anywhere there is an internet connection! Our Basic Level training is designed for new hires as part of their orientation and can also be used for experienced technicians in need of documented training.

The self-study modules include video learning, knowledge checks, final exam and a skills demonstration form. The [TIA Online University](#) offers flexibility to busy technicians by allowing them to study at their own pace. They can view one module at a time and come back later to continue. Or they can complete the entire program in one sitting.

Shop Managers and Company Administrators also have the convenience of adding and maintaining their employees to the system and running real-time reports on technician progress and test results.

An educated workforce results in higher productivity, lower liability risks and happier customers! Let us show you how the [TIA Online University](#) can help you better your business today!

Your company can receive online access to TIA's basic level training for a flat annual fee per location— which **includes a TIA Membership**. Each location can train an unlimited number of technicians on each course, and shop managers will have easy access to reporting and monitoring functionality.

PRICING OPTIONS

Option 1 – Includes Certificates for each Technician
(Each location must be a member of TIA. The annual membership fees are \$100/year per location.)

Online Course Pricing

Advanced TPMS = \$155/location per year
Basic Automotive Tire Service = \$155/location per year
Basic Commercial Tire Service = \$155/location per year
Basic Earthmover Tire Service = \$285/location per year
Basic Farm Tire Service = \$230/location per year

Option 2 – Does NOT include Certificates for Technicians
(Each location must be a member of TIA. The annual membership fees are \$100/year per location.)

Online Course Pricing

Advanced TPMS = \$55/location per year
Basic Automotive Tire Service = \$55/location per year
Basic Commercial Tire Service = \$55/location per year
Basic Earthmover Tire Service = \$135/location per year
Basic Farm Tire Service = \$80/location per year

ADVANCED TPMS

Advanced Tire Pressure Monitoring Systems (TPMS) is a 250-level program that focuses on the manufacturer-specific requirements for the most popular domestic and import vehicle/sensor manufacturers. This program is designed to give the experienced technician more in-depth information regarding the identification, maintenance, reprogramming, and diagnostic procedures and includes an 8.5 x 11 version of TIA's TPMS Relearn Chart that includes the relearn summaries and replacement part numbers for most domestic and import vehicles. Advanced TPMS has 4 Modules:

- Module 1 – TPMS Identification
- Module 2 – TPMS Service Requirements
- Module 3 – TPMS Relearn Procedures
- Module 4 – TPMS Diagnostics

BASIC AUTOMOTIVE TIRE SERVICE

Basic Automotive Tire Service (ATS) is a 200-level minimum skills training and certificate program that outlines and explains the guidelines for servicing passenger and light truck tire and wheel assemblies. It includes the step-by-step procedures for: lifting the vehicle; removing the assembly; demounting, mounting and inflating; balancing; tire repair; and wheel installation. Basic ATS places special emphasis on the relationship between torque and clamping force so technicians have a thorough understanding of the necessary steps to ensure wheel retention on steel and aluminum wheels. Basic Automotive Tire Service has 10 Modules:

- Module 1 – Introduction
- Module 2 – Tires
- Module 3 – Wheels & Fasteners
- Module 4 – Raising the Vehicle
- Module 5 – Tire/Wheel Assembly Removal
- Module 6 – Torque & Clamping Force
- Module 7 – RIST
- Module 8 – Demounting, Mounting & Inflation
- Module 9 – Balance and Run-out
- Module 10 – Puncture Repair

BASIC COMMERCIAL TIRE SERVICE

Companies that wish to provide OSHA compliance training for new hires and experienced technicians using an in-house program without certification can participate in the Basic Commercial Tire Service (CTS) Program (200 Level). Basic Commercial Tire Service has 12 Modules:

- Module 1: Safety
- Module 2: Basic Tire Info
- Module 3: Rims and Wheels
- Module 4: OSHA Regulations
- Module 5: Jacking and Lifting
- Module 6: Torque
- Module 7: Wheel End Safety
- Module 8: Hub-Pilot Wheels
- Module 9: Stud-Pilot Wheels
- Module 10: Demountable Rims
- Module 11: Single-Piece
- Module 12: Multi-Piece

BASIC EARTHMOVER TIRE SERVICE

TIA's 200 Level Basic Earthmover Tire Service (ETS) Training Program for OTR tire technicians outlines the minimum skills and safety guidelines for servicing one-piece, three-piece, five-piece, and double gutter OTR assemblies. Basic Earthmover Tire Service has 15 Modules:

- Module 1 – Introduction
- Module 2 – Tires, Rims & Valves
- Module 3 – Service Truck Operation
- Module 4 – Site Preparation & Equipment Lifting
- Module 5 – Hydraulic Bead Breakers & Rams
- Module 6 – Service One-Piece on Machine
- Module 7 – Service Three-Piece on Machine
- Module 8 – Service Five-Piece on Machine
- Module 9 – Service Double Gutter on Machine
- Module 10 – Service One-Piece Loose
- Module 11 – Service Three-Piece Loose
- Module 12 – Service Five-Piece Loose
- Module 13 – Wheel & Rim Fastening Systems
- Module 14 – Install & Remove Wheel Fitment
- Module 15 – Install and Remove Rim Fitment

BASIC FARM TIRE SERVICE

Basic Farm Tire Service (FTS) is a 200-level minimum skills training and certificate program that outlines and explains the guidelines for servicing farm, agricultural and construction tire and wheel assemblies. It includes the step-by-step procedures for demounting, mounting and inflating single, dual and 3-piece assemblies in addition to service truck operation and liquid ballast installation/removal. Basic Farm Tire Service has 11 Modules and an Appendix:

- Module 1 – Introduction
- Module 2 – Tires
- Module 3 – Rims, Wheels, and Valves
- Module 4 – Service Truck Operation and Maintenance
- Module 5 – Lifting the Machine
- Module 6 – Hydraulic Tool Operation and Maintenance
- Module 7 – Single Piece Demount, Mount & Inflate on Machine
- Module 8 – Single Piece Demount, Mount & Inflate off Machine
- Module 9 – Dual Demount, Mount & Inflate
- Module 10 – 3-Piece Demount, Mount & Inflate on Machine
- Module 11 – Install and Remove Liquid Ballast
- Appendix
